

WENDOVER ART GROUP

CUSTOM MIRROR PROGRAM

Since 2005, Wendover Art Group has evolved from a poster print company into a leading American manufacturer of high-quality artwork, mirrors, lighting, textiles, and more. Our newly established vertically integrated glass shop enables us to provide a custom mirror program that puts you in control of your design. With these mirrors, you can choose from a wide array of options, and rest assured that each piece is crafted with care and precision. Additionally, our custom mirror program is exceptionally user-friendly! Just select your frame, choose the glass size and shape, and decide whether to bevel or not.

WENDOVER ART GROUP

OUR STORY

Starting as a small poster print company in 2005, Wendover Art Group has grown into a multi-channel American manufacturer of high-quality artwork, mirrors, wallcoverings, lighting, textiles, bed swings, and sculptures for top interior designers and brands in both the residential and commercial markets.

From its headquarters in Largo, FL (Tampa/St. Petersburg), Wendover maintains its commitment to producing artisanal creations that are domestically made, provide superior value to customers, invest in technology and talent, and strive to be The Source for Art. Building upon their luxury portfolio, in 2022, Wendover acquired Lowcountry Originals, a South Carolina manufacturer of lighting, bed swings, sculptures, and mirrors. In 2023, Wendover acquired Kevin O'Brien Studio, a textile company designed and handcrafted in Philadelphia, Pennsylvania, and Friedman Brothers, a 120-year-old decorative mirror and furniture accessories company based in Miami, Florida. Stronger together, Wendover, Lowcountry Originals, Kevin O'Brien Studio, and Friedman Brothers are building and expanding their product capabilities and offerings. All products are available through a network of sales representatives, online, and in showrooms in High Point, Atlanta, Dallas, and Las Vegas.

OUR PROMISE TO OUR CUSTOMERS

We support your design aesthetic and success by keeping three promises to you:

PARTNERSHIP: We collaborate with you to bring your ideas to life within budget and quality standards. Our state-of-the-art facilities are built to manage the creation of your art, leading to a shorter lead time.

ONE SOURCE FOR ART: We source the art. We design the art. We make the art. Our skilled team of design professionals and in-house artisans stay ahead of trends in art and design. Each piece of art is crafted with care by skilled members of our team that take pride in its creation.

PROACTIVE SERVICE: We have your back, practice "no surprises," and provide respectful, timely, complete, and honest communication. We guarantee the quality of our work and delivery that is accurate, on time, and intact, but should we make a mistake—we fix it. You can count on us to address your needs creatively and thoughtfully with industry-defining standards for products and quality. We appreciate your partnership and would like you to think of us as The Source for Art.

CUSTOM MIRRORS: TAILORED DESIGNS FROM OUR IN-HOUSE GLASS SHOP

With our newly established vertically integrated glass shop, we offer fully customizable mirrors tailored to your preferences. You can choose the shape, size, bevel, and frame of your mirror. Here are some key features:

GLASS SHAPE AND SIZE: Due to our state-of-the-art technology and equipment, we can cut any mirror size and shape, allowing for extensive personalization to fit your design vision.

GLASS TYPE: When selecting glass for mirrors, beveled glass adds a decorative element with its polished, angled edges, enhancing the overall aesthetic appeal. Flat or non-beveled glass offers a simple and clean look, perfect for those who prefer a minimalist design.

LEAD TIMES: As a domestic manufacturer, our in-house capabilities enable us to offer a swift 3-week lead time for mirror production.

DESIGNER FRAMES

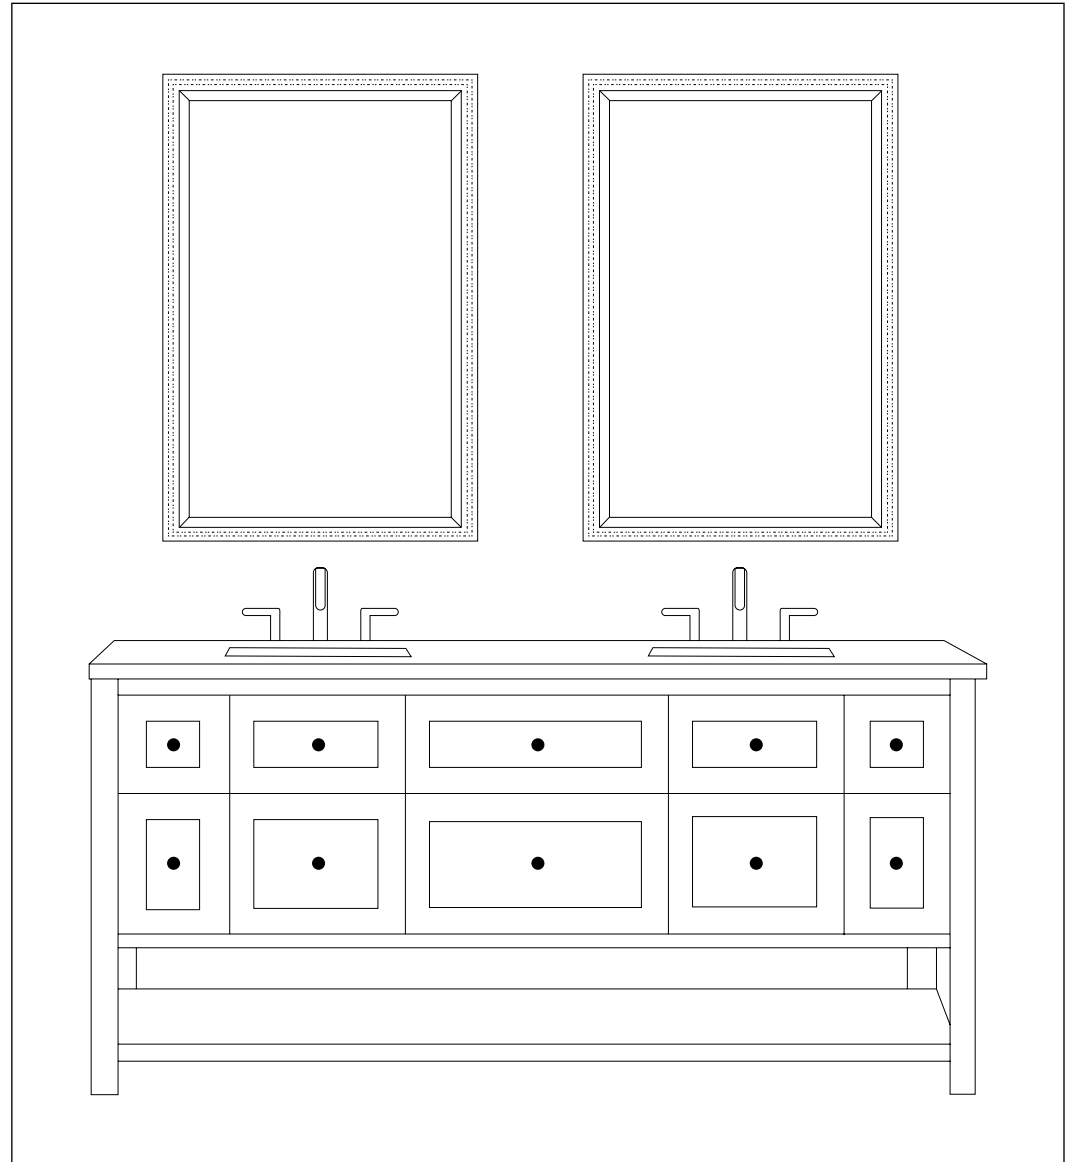

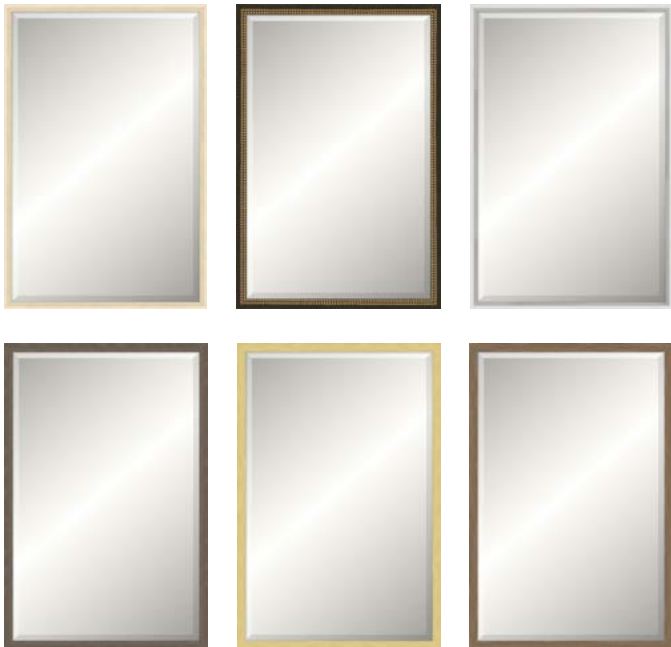

Our diverse collection of mirror frames offers something for every aesthetic, transforming ordinary mirrors into stunning focal points for any space. Crafted with careful attention to detail and featuring crisp miter joints, each designer frame showcases unique finishes, textures, and styles—from rustic woodgrain and luxurious metallics to sleek modern designs.

VANITY AND DOUBLE VANITY MIRRORS

VANITY WIDTH: A common rule is to have the mirror be 2–4 inches narrower than the vanity. For example, a 30-inch-wide vanity should have a mirror that is 26–28 inches wide.

VANITY HEIGHT: The standard height for a bathroom vanity is 32 or 36 inches. The mirror should be hung 5–10 inches above the sink and a few inches above the faucet.

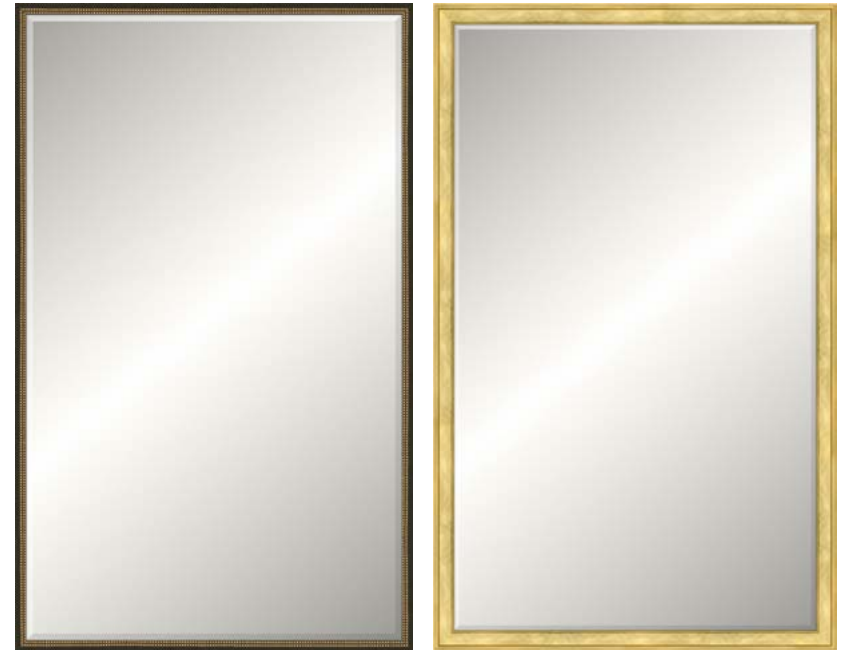

DOUBLE VANITY: Options are to install one large mirror above the sinks or two separate mirrors. Each mirror should be at least the width of the respective sink to allow for enough room on either side of the mirror.

FLOOR MIRRORS

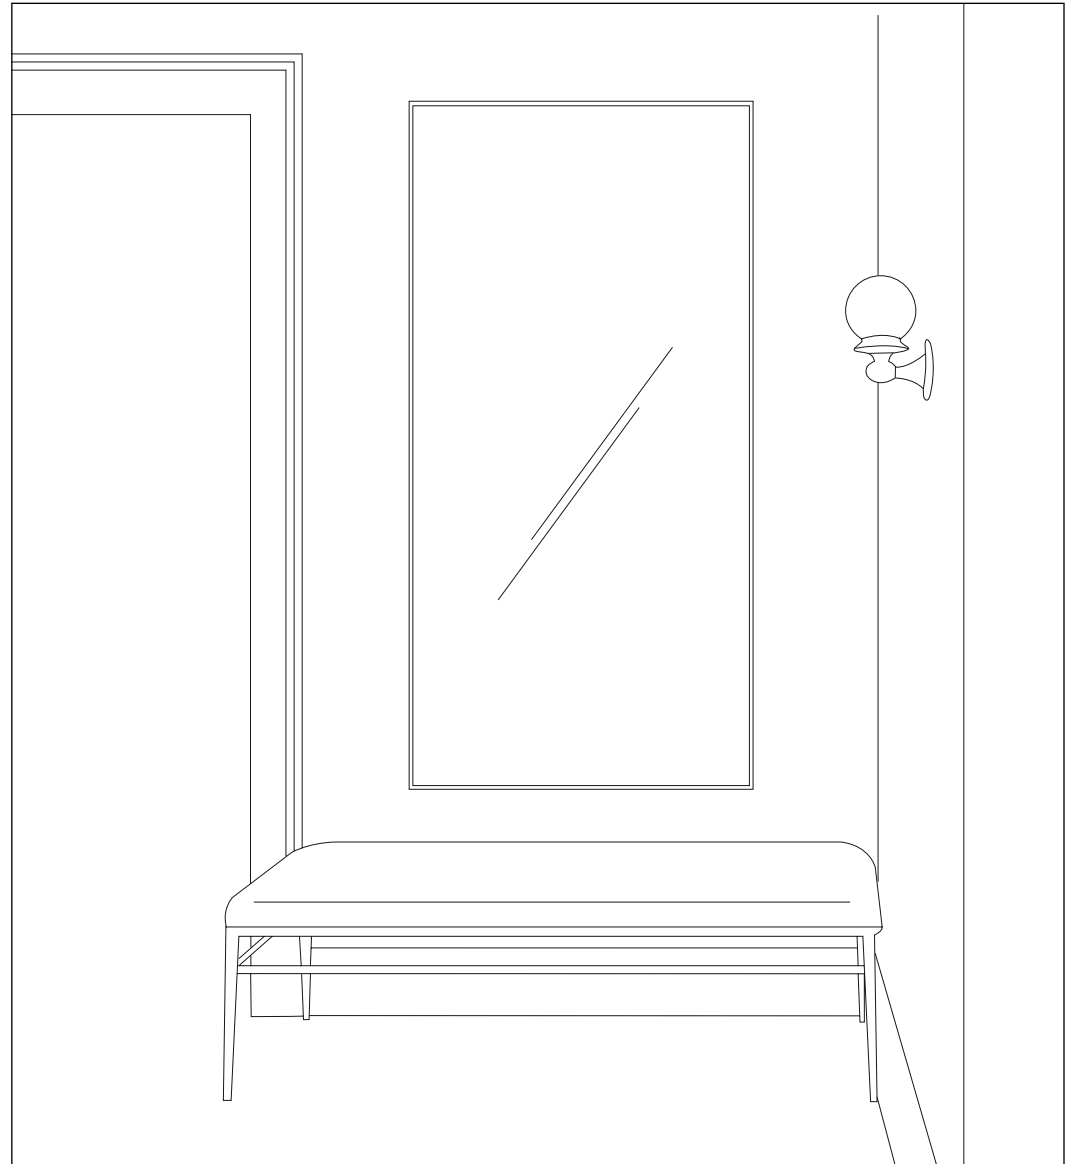

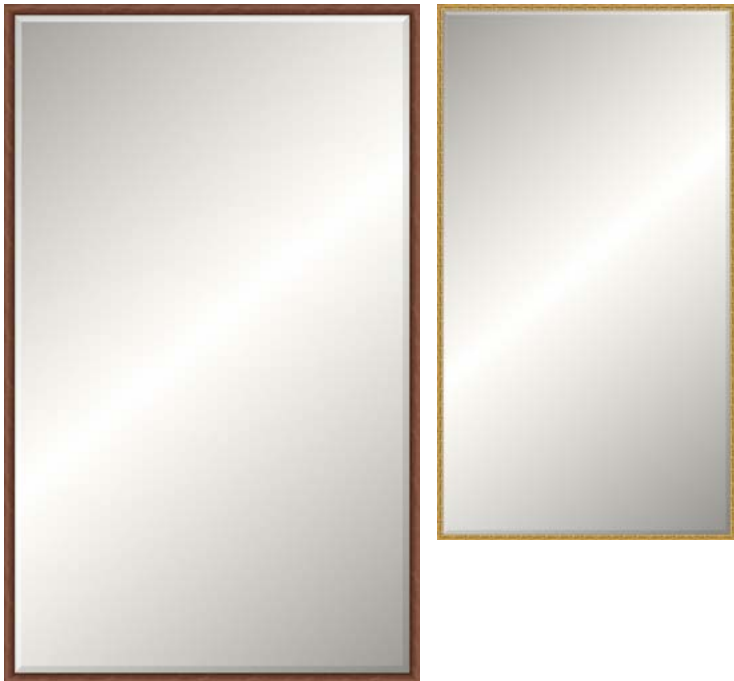

Floor mirrors are an excellent choice for enhancing spacious areas, providing abundant reflection without overwhelming the room. Their ability to create an illusion of height makes them ideal for those looking to maximize vertical space. For a striking focal point, consider an oversized mirror that commands attention while serving a functional purpose. A full-length wall mirror, designed for head-to-toe reflections, should ideally be at least half your height—ensuring you can admire your entire look effortlessly.

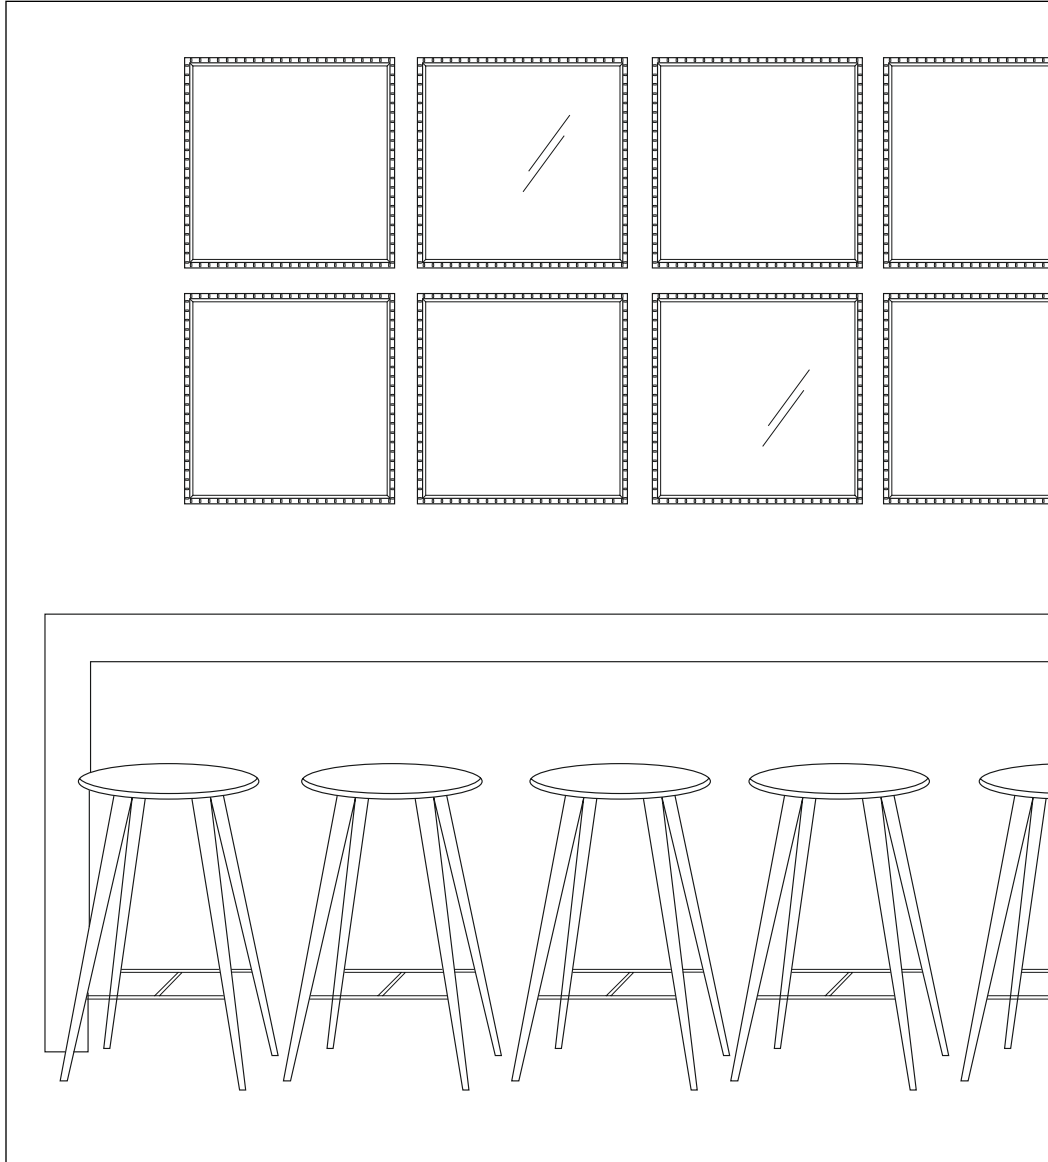

ENTRYWAY MIRRORS

Placing a stylish mirror in an entryway can create an inviting first impression in any home. This simple yet impactful addition not only reflects light, making the room feel brighter and more open, but it also serves as a sophisticated focal point that enhances the overall space.

Whether your clients lean toward sleek, modern designs or prefer ornate gallery-frame styles, reflecting their personality through mirror choices allows for a unique touch. This customization not only elevates the entryway but also sets the tone for the rest of the home, blending functionality with seamless elegance.

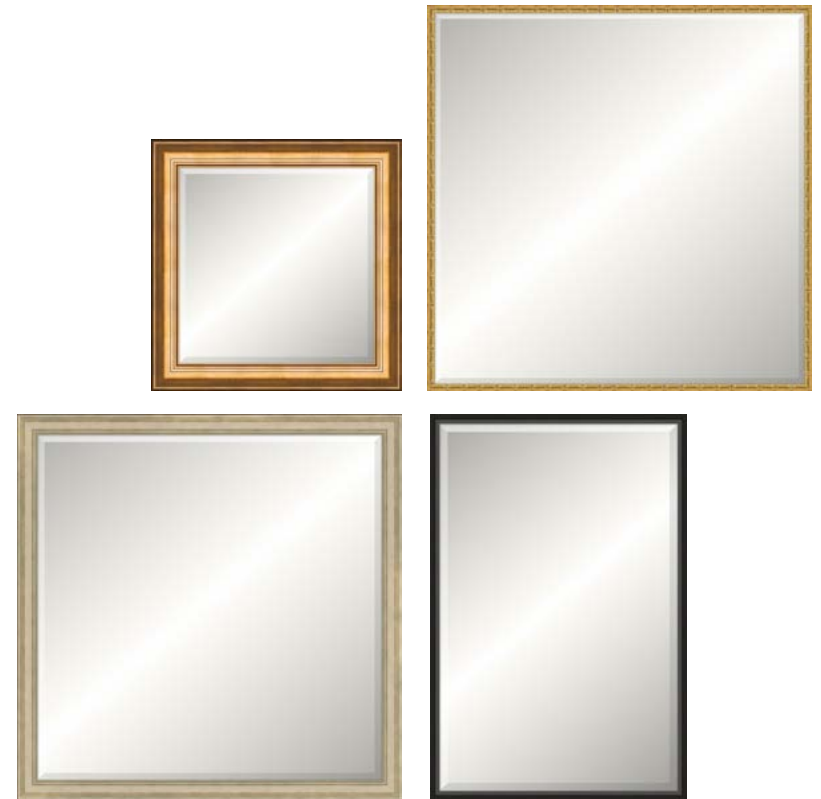

BAR AND CONSOLE TABLE MIRRORS

Positioning a mirror above a bar or console table is a great option, as it can create the illusion of expanded space. Placing mirrors across windows optimizes natural light, enabling it to bounce throughout the area and brighten the overall ambiance.

Another impactful way to use mirrors is by creating a feature wall with several different mirrors. Mixing various shapes, sizes, and styles of mirrors can provide a unique focal point, reflecting light and creating a stunning display that draws the eye and adds character to the home.
